Saturday Is Courtesy Day In the Carpet Store at Parsons-Souders

- 1—That our regular every day prices are as low as, if not lower than so-called spasmodic sale prices.
- 2—That it is not how much you pay but what you get for what you pay—that's it.
- 3—That we will make, lay and line all carpets free during sale.

Over 5,000 homes in the city of Clarksburg and nearly as many more outside the city, but in easy shopping reach of Parsons-Souders all have summer furnishing needs to fill right now.

It is the call of the season, and on Monday next, for one week's special sale, this is the store that will answer.

Whether you have one room or a dozen or, any in between this is the store that has something you want and you need.

We have great new stocks, in all respects standard and fine and the prices are moderate—during the sale prices will be further lowered that all will save.

On Monday Will Begin Clarksburg's Greatest Sale of Carpets, Rugs

A sale for its magnitude and its extraordinary values will take precedence over all other carpet and rug sales ever held in Clarksburg.

There can be no mistake about it—the GOODS are here, plentiful beyond comparison, good beyond suspicion, reliably low priced, fully guaranteed.

Back of this sale are all the floor coverings of our great regular stocks and some timely purchases from the very best carpet makers in the country.

There are Hundreds of Rugs and Carpets and We Want You to See Them

And Saturday the 16th, will be COURTESY DAY, a day set apart for the examination of the Carpets and Rugs, Draperies and Curtains and the prices that'll show the economies of the sale which starts Monday and lasts six days.

Every one is welcome. Courteous salesfolk will show you thru the stocks. Seeing is what we want, that we may convince you of the truthfulness of our claims.

There is nothing to conceal. You are to look only.

You will not be made to feel uncomfortable.

It will be a pity for the homes that have been waiting for just such an opportunity as this should by any chance fail to overlook Courtesy Day and the days of actual selling.

Further, it gives you time to compare with other stores—we are so sure of our goods and prices we urge comparison—let your own eyes convince you that we sell better grades of Carpetings at lower prices than anywhere else.

FILM EXPORTS SCORE ADVANCE

Most Remarkable in the Last Twelve Months as Official Records Show.

WASHINGTON, D. C., May 14.—Motion picture film exports from the United States, which have been increasing rapidly during recent years, scored a remarkable advance during March, the total for that month having been twenty-three million linear feet, as against three million in March of the preceding year. During the nine months which ended with March the exports aggregated 146 million linear feet, or four times the amount exported in the corresponding period of 1913 and nearly twice the amount exported in the same period of the former high record year, 1912. A continuation of exports upon the average level maintained in the last nine months would bring the total for the full fiscal year up to 195 million linear feet, or sufficient to extend a motion picture film ribbon around the globe at the equator with surplus strips long enough to reach from the equator to the North and South Poles.

Prices Falling.
Prices of motion picture films are steadily falling. In March, 1914, the average export price, based upon ruling wholesale prices at the domestic points of shipment, was a little less than ten cents per linear foot, and in March of the present year, a little more than three and one-half cents. The unexported films dropped in export price from twelve cents per foot in March, 1913, to three cents per foot in March of the current year, while the exported films in the same period slightly declined.

Formerly most of the films were exported before exportation; now about four-fifths of the total quantity exported consists of unexported films available for camera use in foreign countries. Of the month's exportations of motion picture films, 20 million feet were unexported and three million feet exposed, thus reversing the proportions which obtained in March of last year, when unexported films represented only 83 thousand feet out of a total of three million feet of all kinds of films exported.

Eng' and Chis. Buyer.
The foreign sales of motion picture films are chiefly to England. That country takes about nine-tenths of the total exports. The next largest customers are Canada, Australia, Cuba, France, Japan, Argentina, Brazil, Colombia, Venezuela, China, Hongkong and the Philippine Islands. In many other countries,

WON'T THROW BOMBS IN OHIO CAMPAIGN

Miss Brenda Franchlyn.

Ohio suffragists in their quest of the ballot this year will have a fighting ally in the person of Miss Brenda Franchlyn of England.

Miss Franchlyn's English connections are most gentle, even noble. Her exile to Cleveland, her relatives broadly hint, is due to the desire that she keep out of the suffrage activities in England, and incidentally out of jail. She says she will throw no bombs in Ohio, because it won't be necessary.

'The Woman's Store'

however, motion pictures are being made with cameras equipped with films manufactured in the United States, the world's largest purveyor of that article of increasing popularity.

This increase in exports of motion picture films from the United States is, apparently, incidental to the broader consumption of that class of articles throughout the world, for while our own exports were growing from four million dollars in the fiscal year 1912 to an indicated total of over seven million in the current year, those of France were also making rapid advance. In 1911 her exports of this class of goods were valued at \$1,706,000; in 1912, \$3,666,000; and in 1913, \$6,408,000.
